Health Education and Promotion (HEP) is currently recruiting up to 20 Volunteers for the 2019 – 2020 academic year. Volunteers work a minimum of 40 hours per quarter (average of 4 hours per week) when school is in session.

HEP leverages a dynamic public health approach to foster and build environments, institutional practices and a campus culture that promote student success and lifelong well-being. Professional staff, Student Coordinators and Volunteers focus on issues related to alcohol, tobacco and other drugs, sexual well-being, physical well-being and mental well-being.

**Position Duties**

Volunteers will assist HEP in changing the campus environment and providing student-centered education to promote health and wellness among UC Davis students. HEP requires a three-quarter commitment in addition to approximately three days of training before the start of the Fall Quarter. You must be a current student during all three quarters.

HEP Volunteer duties include:

- Staffing HEP tables at special events such as The Buzz and the UC Davis Farmers Market
- Participating in outreach activities
- Distributing HEP marketing materials through various campus channels
- Collecting information through environmental scans, assessments and surveys
- Stocking and staffing the Love Lab, a mobile cart taken to various campus locations to distribute free safer-sex products and information
- Attending a mandatory, weekly one-hour team meeting with the Volunteer Coordinator on Thursdays from 5:10 - 6:00 PM each quarter
- Completing a minimum of 40 volunteer hours per quarter, including weekly meetings and office hours

*Note: Transcript notation may be received with satisfactory completion of quarterly volunteer requirements. One SPH 192 unit per quarter may be earned for completing the volunteer requirements.*

**The Application Process**

This is a competitive application and interview process. The interview consists of a group interview. Upon application submission, you will sign up for an available interview slot. Applications are due Friday, March 8th by 4:00 PM to the Health Education and Promotion department, located on the third floor of the Student Health and Wellness Center, or can be emailed to heprecruitment@shcs.ucdavis.edu. All applicants will receive notification regarding selection via e-mail at the address provided on the application.

**Medical Clearance Requirement**

Since this position is located at a health facility, all employees are required to participate in preventive medical and monitoring programs, which include a blood test and TB screening and may also include immunizations. There are costs associated with these tests that the student or their insurance will be responsible for (usually about $30). These screenings are provided to meet Federal, State and University requirements.
