**Mondays:**

**Student-Athlete Career Transition & Exploration Group**
10:00-11:45 am | Internship & Career Center
Facilitator: Fernando Frias

The experience of student-athletes involves balancing intense academic and curricular demands along with the competitive challenges of sport. The successful completion of both leaves little time to consider one’s identity away from sport or personal direction in life. The ability to successfully balance both, however, leaves student athletes with valuable and applicable career skills.

This six-week group is for student-athletes seeking to explore the next steps in their lives and careers as they approach the transition away from collegiate athletics. In an interactive, supportive group setting, student-athletes will have the opportunity to explore personal strengths, career aspirations, and identity adjustments as they navigate the transition from the world of sport to the world of work. Please note total cost of assessments is $45 and expected time commitment for activities outside of the 6 session group times is approximately 1-2 hours per week. If you are interested in
this group, please contact the Applied Sport Psychology Program at sportpsych@ucdavis.edu.
